DETAILED ACTION

This office action is in response to the amendment and remarks filed 04/25/2007.

Allowable Subject Matter

1. Claims 2-8, 12-17, 27 and 29-31 are allowed.

With respect to claims 4, 8, 12 and 27 applicant arguments presented *on page 6* of applicant's response are found persuasive because the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "a reciprocating type gas expansion engine receiving a supply of pressurized natural gas from a natural gas pipeline" *in combination with the other claims limitations*.

With respect to claim 15, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "at least one boiler supplied with at least a portion of fuel gas that has been lowered in pressure by running the supply of pressurized gas through the gas expansion engine; and a second generator driven by a steam turbine using steam from said at least one boiler", *in combination with the other claim limitations*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
